# *HOW TO EDIT THE TEMPLATES*

[SOUTHERNBRIDE.CO.NZ](http://SOUTHERNBRIDE.CO.NZ)

## **Editing the Template**

Take a moment to look around. On the left side of the screen, you'll see various options like templates, elements, text, uploads, and more.

### **Edit Text:**

Click on any text box to change the text. A text editing toolbar will appear at the top, allowing you to change the font, size, color, alignment, and more.

To add new text, click on the 'Text' option on the left sidebar and choose a text style or simply add a text box.

### **Change Images:**

If the template has images, you can click on an image to replace or adjust it. To add your own images, go to 'Uploads' on the left sidebar, upload your image, and then drag it onto the template.

You can also use Canva's library of images by selecting 'Photos' or 'Elements' from the left sidebar.

### **Adjust Colors and Background:**

Click on any element or background area to change its color. A color toolbar will appear at the top, where you can select a new color.

For backgrounds, you can also choose from various patterns and designs by selecting 'Background' on the left sidebar.

### **Add or Modify Design Elements:**

Use the 'Elements' section on the left sidebar to add shapes, lines, icons, and more. Drag and drop them onto your template.

Once an element is on your design, click it to resize or change colors.

## **Finalizing Your Design**

Regularly preview your design to see how it looks. Adjust any elements as needed.

## **Save Your Design:**

Once you're satisfied with your design, click on the 'Download' button at the top right corner.

Choose the format you prefer (PDF, JPG, PNG, etc.) and then click 'Download' to save it to your computer.

## **Printing:**

If you're printing the templates, make sure to use a high-quality printer or opt for a professional printing service. Check the print settings and paper quality for the best results.

## **Disclaimer**

Please note that all templates available in my shop are created using my artwork as well as free elements in Canva at the time of design. However, Canva, the platform used for creating these templates, frequently updates its asset library and may change the status of these elements from free to paid without prior notice.

I cannot guarantee that the elements used in the templates will remain free to use indefinitely. Before purchasing, please ensure that you have reviewed the current status of the Canva elements within the template. If you encounter any issues or find that certain elements have become paid, feel free to reach out to me for assistance or advice on alternatives
